On behalf of the Board of Directors of WIMLER Foundation Hong Kong, I am pleased to present to you the Joint Annual Report 2014 of WIMLER Hong Kong and WIMLER Philippines which describes what we have accomplished in 2014.

Send a child to school

We are proud to report that since the inception of WIMLER Foundation Hong Kong in 2011, this program is still fully funded through individual donations. Friends of WIMLER in Hong Kong provided most of the funding with additional contributions from our donors from various countries. We are also proud of the many people who support our fund raising team. This year, our fund raising team was able to hold three successful public events: Flower Power, Halloween Party, and Frozen in Time Christmas Gala. We also received generous items which we auctioned the proceeds of which added to the amount we raised for this project. Since two years ago, we also started supporting high school students. We found generous individual donors who offered to support 20 high school students. Two students already graduated this year. We also have two college students who are both supported by individual donors. We are really very grateful for the sustained and increasing support to our cause. Since 2010, we have cumulatively assisted the education of 527 pupils, 44 high school students, 50 kindergarten and 2 college students with a total amount of HK$ 355,200 (± Ph 2.1 million). This is aside from the books for the school libraries, computers, sport uniforms, and other materials which we also sent to the schools.

Capacity building program for Filipino migrant workers

Conducting various capacity building trainings to support the return and reintegration process of OFWs in Hong Kong is high on the agenda of WIMLER Foundation HK. Our main activity is the conduct of the six-month Leadership and Social Entrepreneurship (LSE) course where participants learn about financial literacy, leadership, and how to develop social enterprise business plans. Those who are serious in implementing their business plans received mentoring and technical support. LSE is a program of Ateneo de Manila University School of Government, OFSPES, SEDPI, and Ugat Foundation. Since its inception, about 6-8 business plans are already being implemented. Some graduates finally decided to go home for good. The reason given is that, LSE has helped them make decision which for some reasons they kept on postponing. After the course, some participants are able to make informed decisions on matters that affect their future lives. Others, became more effective leaders in their respective hometown associations.

Some also shared that they learned how to manage their remittances and save. They also are able to improve their communications with their family and involve them more in making their migration plans. LSE alone is not enough so we are implementing follow up activities for the graduates and supporting them in achieving their migration plans.

Friends of WIMLER

The pillars of WIMLER are our donors and sponsors. Without their continued, enthusiastic and generous support, we will not be able to implement our various projects. For example, the three motorized boats we donated for fisherfolks in Banate, Iloilo who are victims of typhoon Haiyan. We also rely on our growing number of volunteers. Part of our activities are now being managed by our volunteers.

We are fortunate that in 2014, we received support from PrimeCredit by allowing us to use a space for our LSE course and other seminars and training. We are also grateful for the financial support from BNP Paribas to cover the financial gaps in conducting LSE in 2015 and for SWIFT APAC for its continued support.

We recognize the contributions of our partner organizations in the Philippines, without them, it is difficult for WIMLER HK to implement its various projects on the ground. We thank the school principals, teachers and community organizers in our areas of operations in North Cotabato, Davao del Sur, Nueva Vizcaya, Iloilo and Bulacan.

Lastly, I would like to take this opportunity to welcome Richard Rispens and John Bowdre as new members of the Board of Directors. I also would like to thank my colleagues for taking extra miles so that all planned activities of WIMLER are implemented as planned.

We look forward to your continued support.

SAMY RAZIM
Chairman
WIMLER Foundation Hong Kong Ltd. was officially registered in 2011 as a non-profit and charitable organization which primary objective is to support the capacity building and empowerment of migrant communities regardless of nationalities and to promote cultural diversity based on mutual respect, solidarity, and shared empowerment among peoples.

WIMLER HK was established through the initiative of Leila Rispens-Noel together with Emilie Veringa-Tobias and Victor Neri as co-founders. Leila who has lived for 29 years in the Netherlands before relocating to Hong Kong in 2009, founded WIMLER Philippines in 2006 as her way of “giving back” to her country of origin where she already assisted hundreds of children through her philanthropic work. At present, the WIMLER HK team is composed of individuals from various nationalities with different fields of expertise.

Our Core values

Respect
We believe that poor people have the right to improved quality of life. That the legitimate aspirations of the local organizations and their members with whom we work for should be valued, enhanced, and respected.

Making a Difference
We believe that our work must focus on building and strengthening capacities of people to help them exercise their legitimate rights to live a decent and dignified life. That supporting social entrepreneurship and other job-creating activities, if properly supported, could make a difference in the lives of the poor.

Integrity
We believe in conducting ourselves with transparency, honesty and integrity to the values, beliefs and principles that Wimler Foundation upholds. We strive to be ethically and morally accountable to the resources entrusted to us.

Commitment
We believe in dedicated efforts to achieve our vision and mission by forging partnerships with organizations and individuals who share our vision and mission and by practicing servant-leadership.

Sustainable Development
We believe that harnessing our natural resources, skills and opportunities in a sustainable and responsible manner would contribute to a better quality of life of the present and future generations.

Migration and Development
We believe that if properly harnessed, migration could work for development but only when migrants are socially and economically empowered and their rights are protected, respected, and promoted.

What we do
- Support and initiate customized capacity building training program for migrant workers and their organizations in Hong Kong (e.g. transformational leadership, team building, financial literacy, social entrepreneurship, and project management);
- Engage and stimulate active involvement of migrant organizations of various nationalities, concerned individuals, academe, policy makers, public, and private sectors to promote the well-being of migrants and their families;
- Launch fundraising activities to support community-driven projects in migrants’ countries of origin especially in the areas of education of poor children and economic empowerment of local communities;
- Conduct workshops or seminars on the link between migration and development focusing on the role of migrants and the potentials of hometown associations as agents of development;
- Provide technical assistance, consultancy services and conduct research related to migration, microfinance, remittances, and development and disseminate them for knowledge sharing and influencing policies and practices that affect the lives of the poor;
- Encourage and promote Corporate Social Responsibility (CSR) to help poor communities to rise up from poverty; and
- Establish strategic alliances with organizations which share similar vision and mission with WIMLER.
For migrant workers in Hong Kong, they have to go home for good, sooner or later. WIMLER strives to support them in their return and reintegration process. Below are some of the implemented business plans which were developed during the LSE course.

- 38 migrant domestic workers and one Filipino HK resident graduated the six-month Leadership and Social Entrepreneurship (LSE) training program
- 16 domestic workers successfully attended the Practicum and 8 participants were qualified to receive diploma from Ateneo de Manila University School of Government
- 30 participants attended the Reintegration Planning and Counseling training conducted in Hong Kong by Atikha
- Conducted Financial Literacy training for 25 newly-arrived OFWs in Hong Kong in partnership with Project BE
- Provided technical assistance and mentoring to LSE graduates who are implementing their business plans
- Supported two tutorial classes for Chinese immigrant children in partnership with Hope of the City Foundation
- Started tutorial class for 19 immigrant children (non-Chinese)
- 138 pupils, 18 high school students and 2 college students went to school during the school year 2014-2015
- Distributed toys, 1,500 books and 2,500 CDs to various schools in Davao del Sur
- Donated 20 fishing boats to typhoon Yolanda victims in Bantayan, Cebu and 3 motorized fishing boats to Banate, Iloilo

Ciline is a very entrepreneurial woman. She found it important to get enough knowledge before starting her business so she attended the LSE course. After her course she opened WOW SPA and Feldream Spa, a boutique selling handbags, and a lending company. With these businesses she was able to provide jobs to about 40 people.
Leadership and Social Entrepreneurship Course (LSE 22)

In 2014, there were 38 Filipino migrant workers and one Filipino resident in Hong Kong who have successfully completed the six-month LSE course. Another 16 participants finished the Practicum 2 class. The graduation was held at Bradbury English School, Stubbs Road, Hong Kong last November 9. Deputy Consul General Rosanna Voogel, Ateneo de Manila University President Rev. Fr. Jose Ramon T. Villarin S.J., Fr. Pat Falguerra of Ateneo de Manila School of Government, and Vince Rapisura of SEDPI attended the graduation.

LSE 22 participants submitted a total of 17 business plans while graduates of Practicum 2 submitted six business plans. All submissions were subjected to rigorous mentoring before they were presented to a board of panelists for further comments.

The business plans are aimed at enhancing the participants’ skills and knowhow in starting a business that could help them prepare for their eventual return and reintegration to the Philippines.

Successful LSE course graduates and those who completed the practicum program, who are college graduates, were awarded with LSE diplomas. Eight graduates of Practicum 2 were qualified to receive diploma from the Ateneo de Manila University School of Government.

The LSE 22 covers 13 sessions each including presentation of business plans, two Sundays per month over a six-month period. The program covers three modules: financial literacy, leadership and social entrepreneurship.

The LSE aims to develop the leadership skills and potentials among overseas Filipinos and their families, provide them with knowledge and skills in savings and investments and other financial matters, and develop and enhance their entrepreneurial skills.

The LSE Program is a joint initiative of the Ateneo de Manila University School of Government (ASoG) with the Overseas Filipinos Society for the Promotion of Economic Security (OFSPES), the Social Enterprises Development Partnerships Inc. (SEDEPI), Ugat Foundation, the Philippine Consulate HK, the Philippine Overseas Labor Office (POLO HK), and the Overseas Workers Welfare Administration (OWWA HK). LSE 22 is organized and coordinated in Hong Kong by WIMLER Foundation Hong Kong with support from PrimeCredit and SWIFT APAC.
Reintegration Planning and Counseling Workshop

Thirty participants, all LSE graduates, attended the Reintegration Planning and Counseling workshop conducted by ATIKHA last November 30. The objectives of the workshop are 1) to understand reintegration and be aware of the issues related to the challenges of the migrants and families in reintegration planning; 2) gain skills in reintegration counseling; 3) be aware of different government and private sector partners who could provide concrete psychosocial, investment, technical vocational and entrepreneurship training where migrants and families could be referred; and 4) implement a monitoring and mentoring scheme of migrants and families who participated in the financial education course and involved in reintegration planning.

The training is part of the return and reintegration program of WIMLER Foundation HK.

Financial Literacy Training for Newcomers

About 25 participants attended the financial literacy training for newly-arrived Overseas Filipino Workers (OFWs) in Hong Kong last October 26 held at the Migrant Empowerment Resource Center (MERC). The purpose of the training is to orient the participants about financial literacy and why it is important to enable them to manage their remittances well. It is widely known that many OFWs in Hong Kong incur debts and having difficulties in getting out from indebtedness. It is hoped that the newly arrived OFWs will be interested to attend a more extensive financial literacy training to help them make sound financial plans and secure their financial future.

The training was conducted by Joy Arenas-Tadios, Kathy de Guzman, and Richard Rispens, directors of WIMLER HK in partnership with Project Be.

Migrant Empowerment Resource Center (MERC)

Finding an appropriate venue for training and seminars is a big challenge in Hong Kong. Majority of OFWs in Hong Kong are free on Sundays. It is also the only day where migrants organize various activities. It is extremely difficult finding an appropriate and affordable venue to conduct seminars and training since most of the HK community centers are already fully booked. The available ones are usually expensive. This has been a big problem for WIMLER. The LSE course requires a permanent venue for at least 13 sessions. We are fortunate that starting 2014, under its Corporate Social Responsibility (CSR) program, Prime Credit provides WIMLER a space for training and seminars.

Other Projects

Due to the tutorial class, some students have gained more confidence in speaking English. However, there are still challenges with grammar and more work and time is required before the students’ English levels show any significant improvement.

Starting November, WIMLER also supports tutorial class for 19 non-Chinese primary students but this time in Chinese language and eventually, other relevant subjects too. The project is being coordinated by Joy Tadios-Arenas, director of WIMLER. Having no permanent venue for the class is a problem so WIMLER has to resort to conducting classes in cafes or restaurants. Currently, the regular sessions are held every Saturday morning/afternoon in Wan Chai and Quarry Bay. While other schedules - for instance Wednesday or Friday with additional session in North Point - are added when tutors are available or when kids needed additional ones during exam period.

In Hong Kong, children must be taught how to speak and write English and Mandarin. Children of Chinese descent lag behind in English, while non-Chinese immigrant children, need to improve their Mandarin. Children usually find it difficult in coping with their subjects. Being a charity registered in Hong Kong, WIMLER decided to support tutorial classes to give the children the much needed support.

Since early 2014, WIMLER Foundation HK supports two tutorial classes for 20 secondary students from low-income families living in the Sham Shui Po, one of the most depressed areas in Hong Kong. WIMLER funded two, 12-week course classes attended by an average of 6-9 students per class, for a total of four classes. Each class meets once a week for an hour. This project is in partnership with Hope of the City Foundation.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF
WMLER FOUNDATION HONG KONG LIMITED ("THE COMPANY")

We have audited the financial statements of Wimler Foundation Hong Kong Limited set out on pages 3 to 10 which comprise the Company statement of financial position as at 31st March 2015, and the statement of comprehensive income, the statement of changes in equity and statement of cash flows for the period then ended, and a summary of significant accounting policies and other explanatory information.

Members' responsibility for the financial statements

The Members of the Company are responsible for the preparation of financial statements that give a true and fair view in accordance with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants and Hong Kong Companies Ordinance, and for such internal control as the members determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit and report our opinion solely to you, as a body, in accordance with section 141 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of the report.

We conducted our audit in accordance with Hong Kong Standards on Auditing issued by the Hong Kong Institute of Certified Public Accountants. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

VINCE LIU & CO.
Certified Public Accountant.

SIGNED:

RAZIM SAMY
Chairman

LEILA RISPENS-NOEL
Treasurer
Lack of education is one of the root causes of poverty in the Philippines. Despite government efforts, there are still thousands of children who cannot avail of elementary education. According to the Philippine Institute of Development Studies, a family living in poverty earns less than 200 pesos (5 US Dollars) per day has been continuously increasing during the past two decades. There are now more than 4 million families living in poverty. Most of these families have young children. About 13.4 million children (age 18 or younger) are poor. Around 5.5 million children are forced to work and out of school. In 2002, the rate of dropout was 8.5 per cent. By 2012, the percentage has increased to 9.2 percent. Many parents could not afford to pay for the auxiliary expenses such as uniforms, school supplies and other things needed by a child to be able to get basic education. And if a child does not acquire education, he or she will never have a chance to get a meaningful and decent job.

Since 2006, WIMLER Philippines has been assisting the education of poor children. Thanks to the support from donors and sponsors of WIMLER Foundation Hong Kong, since 2011, we are able to send more children to school. Like the case of Kristine Abellar, who graduated in high school. Kristine received educational support from Wimler since she was in Grade V. Alvin Melchor is 22 years old who also finished high school this year. He was 16 years old and still in Grade V when we met him for this first time. We encouraged him to finish his elementary education and he did. Then he asked if he can go to high school. WIMLER supported him and he successfully graduated this year. He is 22 years old and taking a two-year Automotive course with support from a WIMLER donor. We also assisted the Nicolas Amor Scholarship Fund (10 scholars) and Association of Bansaleños Worldwide (ABW) involving 45 pupils. In Bansalan.

Aside from Send a Child to School project, WIMLER Philippines also complements the migrant advocacy work of WIMLER HK in Hong Kong. In 2014, WIMLER Philippines assisted in the conduct of Financial Literacy and Social Entrepreneurship for families of OFWs in Iloilo and Davao City in partnership with Ateneo de Davao University.

In the area of migration and development, we partner with ATIKHA, ADDU Migration Center, PhilSmile, and Institute of Migration Issues. In 2015, WIMLER Philippines will be supporting the Japan International Cooperation Agency (JICA) in a migration and development-related project to be implemented in Bansalan. We are also exploring the possibilities to involve more microfinance institutions in migration and development nexus.

We are very grateful that Emile Veringa and Luz Tan, directors of WIMLER HK, took time to visit our schools and helped in the distribution of school bags and school supplies. Their visits helped strengthened the partnership between WIMLER in Hong Kong and the WIMLER Philippines. We pray for the continued support from our partners and donors so we are able to help more children and our communities.

Lella Rispens-Noel
President and Founder
WIMLER Philippines
The WIMLER Partnership for Social Progress, Inc. is a non-profit and non-governmental organization which aims to contribute to the development of the local communities in Mindanao. Established in 2006 by Rispens-Noel Family, WIMLER supports projects which benefit local communities, particularly women and out-of-school youth.

To “Give Back” to the community where she came from is the primary reason why Leila Rispens-Noel, founder and president, founded WIMLER Philippines. Leila left her hometown in 1979 to live in the Netherlands. Inspired by the positive contributions of Filipino diasporas to their respective hometowns, she decided to support local communities. Her initiatives have grown as more friends, individuals, and organizations from around the world support her cause. In 2011, she co-founded WIMLER Hong Kong. She also succeeded in forming WIMLER USA Workgroup.

MISSION
Our mission is to contribute to the development and advancement of grassroots communities through alternative approaches to socio-economic development, education, capacity building of communities and building partnership with like-minded organizations locally and internationally.

VALUES
WIMLER Philippines believes that:

- Poor people have the right to improved quality of life and active participation in the society.
- Our work should focus on building and strengthening community-based organizations.
- The legitimate aspirations of the local organizations should be valued, promoted, encouraged, and respected.
- The community-based organizations should be actively involved in deciding the types of programs and services that are good for them.
- Sustainable development is achievable if development is actively supported by local communities based on local ownership, mutual respect, and trust.
- Entrepreneurial projects and job-creating activities with broad ground-level support could make a difference in the lives of the poor.

OPERATIONAL OBJECTIVES
To achieve its mission, WIMLER works to:

1. Support community-based self-help initiatives (e.g. microfinance and other livelihood projects) and to promote sustainable development.
2. Provide capacity-building, development and skills training that enhance the social and economic empowerment of the local communities.
3. Help people help themselves through practical application of local knowledge and resources to improve their quality of life.
4. Provide educational assistance to deserving children and out-of-school youth.
5. Link locally-based organizations with external donors, leveraging funding to not only support various community projects but also work towards their self-sustainability.
6. Provide technical assistance and consultancy services.
7. Promote the philosophy and principles of corporate social responsibility for the benefit of grassroots communities.

GOVERNANCE
WIMLER is run and managed by volunteers. The Board of Directors is the highest governing body within the structure of WIMLER. The primary responsibility of the Board is to protect the interest of the foundation and ensure that programs are properly implemented in accordance with the Vision and Mission of WIMLER. The Board sets policies for ensuring excellent and effective management.

WIMLER also has an International Advisory Board which helps the Foundation solicit feedback, ideas and opinions from the public. It does not have any legal or formal responsibilities, but is convened to support the Board of Directors.

Our volunteers ensure that projects and activities are properly implemented with minimal operational costs.

FINANCIAL AUDIT
The Gatmaitan Auditing office with BIR Accreditation No. 19-003052-1-2014 valid up to January 2017 conducts the annual financial audit for WIMLER Philippines.
Send a Child to School

Mlang Pilot Elementary School (Mlang, North Cotabato)

Dugong, Elementary School (Dugong, Mlang, North Cotabato)

M.V. Duque Elementary School (Nueva Vizcaya)
These children are typhoon Yolanda victims. Their parents are fisherfolks earning barely enough for their daily subsistence. They are also facing eviction if negotiation with the landowner will fail. Some children have to miss classes because they have to help their parents earn a living. Despite all uncertainties, they all like to go to school and WIMLER is assisting them with the help of our donors.

Sitio Sulangan, San Salvador, Banate, Iloilo

Marber Elementary School (Marber, Bansalan, Davao del Sur)

Kristine Abellar, one of our first high school graduates. Kristine received six years of educational support from Wimler.
